    - No additional information available.
- 

## 5. FIRE-FIGHTING MEASURES

- 5.1 Extinguishing media:
    - 5.1.1 Suitable extinguishing media: Water spray, dry chemical, foam, carbon dioxide. Do not use a solid water stream as it may scatter and spread fire. Use extinguishing media appropriate for surrounding fire.
    - 5.1.2 Unsuitable extinguishing media: Do not use a heavy water stream.
  - 5.2 Special hazards arising from the substance or mixture:
    - 5.2.1 Fire hazard: Potential dust explosion hazard from airborne release. High concentrations of dust or fine particulate in enclosed spaces may represent a fire/explosion risk.
    - 5.2.2 Explosion hazard: Potential dust explosion hazard from airborne release. Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.
    - 5.2.3 Hazardous decomposition products in case of fire: Toxic fumes may be released.
  - 5.3 Advice for firefighters:
    - 5.3.1 Precautionary measures fire: Avoid generation of dust. Keep container tightly closed and away from heat, sparks and flame.
    - 5.3.2 Firefighting instructions: Move undamaged containers from immediate hazard area if it can be done safely. Stay upwind/keep distance from source.
    - 5.3.3 Protective equipment for firefighters: Use self-contained breathing apparatus and chemically protective clothing. Wear fire/flame resistant/retardant clothing.
- 

## 6. ACCIDENTAL RELEASE MEASURES:

- 6.1 Personal precautions, protective equipment and emergency procedures:
    - 6.1.1 For non-emergency personnel:
      - Protective equipment: Wear suitable clothing. Wear recommended personal protective equipment.
      - Emergency procedures: Avoid breathing dust. Immediately contact emergency personnel. Evacuate area.
    - 6.1.2 For emergency responders:
      - Protective equipment: Minimize generation of dust. Wear suitable protective clothing. Wear recommended personal protective equipment.
      - Emergency procedures: Evacuate and limit access. Take precautionary measures against static discharge. Avoid breathing dust. Material spilled on hard surface can present a serious slipping/falling hazard. Spill should be handled by trained cleaning personnel properly equipped with respiratory and eye protection.
  - 6.2 Environmental precautions: Do not allow to enter into ground-water, surface water or drains.
  - 6.3 Methods and material for containment and cleaning up:
    - For containment: Contain the spillage using bonding. For larger spills, dike area and pump into waste containers. Mechanically ventilate the spillage area. Use clean-up methods that avoid dust generation (vacuum wet).
    - Methods for cleaning up: Avoid creating or spreading dust. Take up mechanically (sweeping, shoveling) and collect in suitable container for disposal.
  - 6.4 For disposal of residues: refer to section 13: Disposal considerations.
